

Body Crane Lift with Various Beam Sizes

Able to lift up to 1,000 pounds, the JD3000 body lift crane offers a safer transfer. The lower support frame is constructed of 10 gauge stainless steel and reinforced with welded support brackets for maximum strength. Featuring four locking casters for secure positioning, this series can be assembled in minutes and is designed to give many years of maintenance-free service. When you want the versatility and convenience of a body lift, the JD3000 is the logical choice.
